

## Registered Nurses - Nursing Resource Department

Permanent positions, 4.0 FTE

The Taranaki District Health Board understands the importance of having a well planned workforce that meets to needs of the community and the organisation. An improved workforce management system supports our building re-development project and proposed new models of care. We are now at an exciting stage where we want to increase the number of permanent staff to meet these needs. We have an opportunity to improve the way we carry out our daily work specifically in how we utilise staff, managing our fiscal responsibilities and meeting future workforce challenges.

One of our goals is to increase the number of nurses working at the frontline across all specialities and we want to hear from you!

These roles involve the nurse being allocated to the various wards and departments within the acute hospital setting in response to workload, staffing and other organisational demands. This is a varied role in a supportive environment, where staff are actively encouraged and supported to extend their clinical skills. These roles are more suited to nurses with medical and surgical experience.

Applications are invited from suitably experienced registered nurses for positions working rostered and rotating shifts. We are keen to hear from those who may want to work permanent night shifts, only part time or on specific days. Whatever your need is we invite you to apply.

Applicants must have the following attributes:

- Motivation and self direction
- Excellent interpersonal skills
- Adaptability and flexibility
- Excellent time/workload management skills

To make an online application go to our Careers pages at: <http://www.tdhb.org.nz/careers/careers.shtml>

Select under Job Field "Nursing" and click on "Search for Jobs", vacancy number 1412.
