# Associate Clinical Charge Nurses Required

## North Shore Hospital

A new and exciting development currently under construction on the North Shore site named the Lakeview Development will provide North Shore Hospital, by 2011, with a new Emergency Department (ED) and a separate, but adjacent, Assessment and Diagnostic Unit (ADU) for the care and management of acutely referred patients. In addition to providing much needed additional capacity, and better designed facilities, the Lakeview development enables the transformation of the acute and emergency care system at North Shore Hospital.

We are seeking dynamic nursing leaders to fill the positions of Associate Clinical Charge Nurse for our new ADU. You will need to be a Registered Nurse with demonstrated leadership skills with at least 5 years post registration experience as a senior clinical nurse in current acute care clinical practice.

This role works to coordinate the care delivery systems in a fast pace setting 24/7, working closely with the Charge Nurse Manager. You will need current experience in co-ordinating systems, processes and resources over a shift to ensure that staff are able to meet the needs of the patients/consumers in the most effective practice environment. You will have advanced clinical assessment skills, be a role model in excellent customer service and team work and passion for your own professional development is essential.

This is an exciting opportunity to be part of a new department and to make your mark.
